ABOUT US

JBSims Consultancy was founded in January 2018 by our Proprietor Jack Bupe Simutowe, Ph.D. an Economist, Finance, IT and Logistics Professional. He has over 15 years of experience in Business, Finance, Clearing & Freight Forwarding, IT, Product & Systems Development and Logistics. We also have a team of competent, dedicated, professional and qualified staff who are ready to attend to your exact needs and wants!

We realized that world over, majority of the people, both from business and social perspectives are proponents of the informed decision/s concept. We are not in any way against the informed decision/s concept. However, we place emphasis on informed decision/s on the correct/right and relevant information. It is worth noting that a decision may or might be an informed decision but as long as it is based on the wrong or irrelevant information, it will never be the best or good decision to have been made given that circumstance hence the need for decisions to be based on the correct/right and relevant information. It is from this background that our business JBSims Consultancy was born so as to help individuals/companies/institutions to be more effective and efficient in their operations so as to maximize on profitability. We further offer various products and services that are tailor made or specific to each and every customers' exact needs and wants. This is what differentiates us from other consultants, product suppliers, system recommendation specialists, product developers and service providers on the market. Businesses keep evolving in the 21st century and whether you are a small or big business; you need to keep focused on developing products and services/solutions/systems that are needed to keep your business afloat. We pride ourselves in providing a perfect central nervous system through consultancy and various product supplies to sustain your business and the more reason we have partnered with various companies around the world to achieve this and bring you world class products, solutions, systems and services right to your doorstep.

We also supply various hardware and business software that will enable your business to be efficient in product and service delivery as well maximize the full potential of your profitability whatever industry you may be in. We also do asset tagging and we manufacture high quality asset tags and various self adhesive labels right from our premises to meet all your self-adhesive label needs. And if you are a product supplier or manufacturer and do not have a unique barcode to identify your product, we are here to provide you with internationally approved and accepted barcodes for whatever industry you are in from Retail, Pharmaceutical, Shipping to Manufacturing. Simply put, we provide barcodes and various self-adhesive labels for whatever industry you may think of.

Our business JBSims Consultancy is a registered business in Zambia with the Patents and Companies Registration Agency(PACRA) and our registration number is 320180000286. We offer consultancy online, at your premises and physically in our offices. We are here to meet your exact needs and wants as clients and be rest assured of exceptional and reliable product and service delivery. Contact us today, any day and anytime!

Mission Statement

Our mission is to provide individuals, SMEs and Corporate institutions with the relevant and correct information and procedures specific to their needs and wants for them achieve their business, career and strategic growth objectives and goals. We accommodate the most strategic and very well thought out solutions to client aspirations, challenges, limitations, responses and opportunities relative to the area of business, career, technological advancements and competition surrounding their (client) current circumstances/situations and where they want to be. We are a trusted and professional advisory consultant, giving our clients objective, practical and results-driven analysis, solutions and applications.

Vision Statement

Our vision is to be one of the best consultants in the world and a business that clients can fully rely on anytime and all the time!

Core Values

Our business is defined by five core values, which form a very important part of our business identity and operations:

Honesty and Objectivity: We do my work in an objective, simple and straight forward manner. We do not change our research results or analysis to accommodate illegitimate objectives.

Intellectual Quality: We create and apply comprehensive and thorough analytical and problem-solving techniques. Our approach is rooted in verifiable and re-creatable findings that lead to consistent results. We approach each aspect of our work as the only one of its kind that merits a unique and separately arrived at solution.

Consideration and Respect: Our consultancy work and personal behavior are governed by consideration and respect for each and everyone one of my existing and would be clients. Above all, we respect each human being irrespective of their appearance, background, color or financial position.

Ethics: We uphold the highest standard of ethics and transparency in our work and dealings with clients. We work very well with all clients and do not, never have and never will compromise client data or information.

Knowledge: Our work is based on knowledge acquired through our professional studies and our own experiences in business and life in general. We also interact with and learn from other business owners and professionals, CEOs, Directors, Consultants, Managers and Practitioners from all walks of life. We endeavor to consistently expand our knowledge in the areas of our consultancy through continued studies, research and interaction with different people to enhance our ability and service delivery in an excellent and exceptional manner.
